

Security Marshal is a leading provider of Email Security and Collaboration Tools protection.

Partnering with CheckPoint and using the preventative *Harmony Email & Collaboration software*, you can rest assured that you have the most comprehensive suite of security features to secure your email.

Harmony Email & Collaboration employs pioneering-edge API functionality, advanced AI algorithms, preventative threat intelligence, behavioral analysis, and sandboxing technologies.

Harmony Email Collaboration Components

1	Microsoft Outlook 365	 Outlook	Manage your email, calendar, tasks, and contacts together in one place. Use Outlook's built-in calendar to keep track of appointments and events. Locate messages, people, and documents with Outlook search.
2	Google Gmail	 Gmail	Google Workspace is a collection of cloud computing, productivity and collaboration tools, software and products developed and marketed by Google. Gmail is built on the idea that email can be more efficient and useful.
3	Microsoft Teams	 Microsoft Teams	Microsoft Teams is a hub for teamwork in Office 365. Bring everyone together in one place to meet, chat, call, and collaborate at home, the small office, or the large enterprise organizations.
4	Office 365 OneDrive	 OneDrive	OneDrive provides a reliable and natural file management experience across all your devices, including web, mobile, and the desktop of your Windows PC or Mac. Microsoft OneDrive allows you to save, store, access, edit, and share files and photos wherever you are and which ever device you are using.
5	Office 365 SharePoint	 SharePoint	SharePoint is a document management and intranet platform where you store, collaborate, and share information, manage content, provide knowledge, empower teamwork, quickly find information, and seamlessly collaborate with family members, project teams, and across the organization.
6	Google Drive	 Google Drive	Get access to files anywhere through secure cloud storage. Google Drive allows users to store files in the cloud, synchronize files across devices, and share files.

Harmony Email Collaboration Components – Continued

7	Slack		Slack is an instant messaging program designed by Slack Technologies and owned by Salesforce. Although Slack was developed for professional and organizational communications, it has also been adopted as a community platform.
8	Box		Box, Inc. is a public company based in Redwood City, California. It develops and markets cloud-based content management, collaboration, and file sharing tools for businesses. Quickly and easily work securely with anyone.
9	Dropbox		Dropbox is a file hosting service operated by the American company Dropbox, Inc., headquartered in San Francisco, California, U.S. that offers cloud storage, file synchronization, personal cloud, and client software. Safe, simple way to access your files on any device.
10	Citrix ShareFile		ShareFile is a secure content collaboration, file sharing and sync software that supports all the document-centric tasks and workflow needs of small and large businesses. The company also offers cloud-based or on-premises storage, virtual data rooms and client portals. ShareFile is owned by Citrix Systems.

This comprehensive email security tool safeguards and protects against phishing, malware, account takeovers, malicious code, data leakage, and disruptive elements that compromise the security and integrity of communication. Keep your email and collaboration data safe.

Sign-up, and take a free two-week assessment of your Microsoft Office 365 or Gmail environment.
